EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Paul Harrity on 3/30/2006. The application has been amended as follows:

1. **IN THE CLAIMS:**

Claim 80 has been cancelled as requested.

2. Claims 44-79 and 81-87 are allowed over prior art of record.

The following is an examiner's statement of reasons for allowance:

The closest prior art of record, McKeown et al. (US 6,647,019) and Cisneros (US 5,157,654), although in the same field of endeavor, fails to teach unique features of the instant invention as discussed in the argument by Applicant dated 1/12/2006. The cited art, alone or in combination fails to teach "a request generator, of a line card, to generate request signal to be transmitted to a destination line card to receive grant signal authorizing transfer of data (claims 44, 45, 68-70, 81 and 86), a switching device having request spray engine to receive request signals associated with destination card

Art Unit: 2616

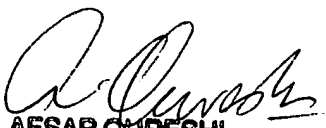

and spray said signal to output ports (claims 67 and 87) and transferring flow control messages as claimed in claims 82 and 83.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
